Our knowledge and experience ensure that customers get the optimal solution for their specific application. In addition, our advanced engineering capability facilitates each unit we deliver performs to spec.

- Special Water and Oil Units
- Pump Tanks
- Central Chillers
- Cooling Towers

We relish a challenge! When it comes to “Specials” or “Customs” our response is always the same—We can do that!

TEMPERATURE CONTROL UNITS
SPECIAL DESIGNS

SPECIAL WATER AND OIL UNITS
- Multiple Zones
- Cabinet or Open Frame
- Wide Range of Heating, Cooling and Pumping Capacities
- Various Controllers, Communications Ports and Protocols

PUMP TANKS
- 275 to 5600 Gallon Reservoirs
- Available in Fiberglass, Polyethylene, Stainless Steel or Steel
- PLC Control for Easy Operation
- Non-overloading Centrifugal Pumps with Various Capacities
TEMPERATURE CONTROL UNITS

SPECIAL DESIGNS

CENTRAL CHILLERS
- Indoor/Outdoor Available
- 20 to 540 Tons
- Several Different Designs to Choose From

COOLING TOWERS
- 38 to 120 Tons with Fiberglass Shell
- 100 to 240 Tons with Non-ferrous Construction
- Designed for Long Life and Low Maintenance
- Backed by Years of Experience in the Industry

Our Temperature Control Units Perform to Spec for Applications in Numerous Industries

- Water Circulating Units
- Oil Circulating Units
- Portable Chillers
- Pump Reservoirs
- Heat Exterminators
- Other Specially-Designed Equipment and Systems
